to parameter (Zoom only)

In Zoom you can send a chat message as a DM to a specific participant by providing the `id` of the participant.

You can get a participant's ID from the `id` field in the `meeting_participant` when calling [Retrieve Bot](#).

PATH PARAMS

id uuid **required**

A UUID string identifying this bot.

BODY PARAMS

to string Defaults to everyone

The person or group that the message will be sent to. On non-Zoom platforms, "everyone" is currently the only supported option, meaning the message will be sent to everyone in the meeting.

message string **required** length ≤ 4096

The message that will be sent.

pin boolean Defaults to false
