BOT

Update Scheduled Bot

PATCH https://us-east-1.recall.ai/api/v1/bot/{id}/

Update a Scheduled Bot.

This endpoint is rate limited to:

- 300 requests per min per workspace

⚷ **LOG IN TO SEE FULL REQUEST HISTORY**

TIME	STATUS	USER AGENT	
		Make a request to see history.	
0 Requests This Month			

Note: Bot updates may not be applied if the bot has already started up, so we don't recommend calling this endpoint in response to a bot status webhook.

🚧 Meeting URL response shape

Meeting URL's are currently improperly reflected in the API spec for **meeting URL's in responses**. For proper meeting URL shapes in API responses, please see Me URL's.

Ask AI

> `meeting_url`'s that are provided as a **parameter** to the API are reflected accurately in the API spec as strings.

PATH PARAMS

id uuid required

A UUID string identifying this bot.

BODY PARAMS

meeting_url string

The url of the meeting. For example, https://zoom.us/j/123?pwd=456. This field will be cleared a few days after the bot has joined a call.

bot_name string length ≤ 100 Defaults to Meeting Notetaker

The name of the bot that will be displayed in the call.
(Note: Authenticated Google Meet bots will use the Google account name and this field will be ignored.)

join_at date-time | null

The time at which the bot will join the call, formatted in ISO 8601. This field can only be read from scheduled bots that have not yet joined a call. Once a bot has joined a call, it's join_at will be cleared.

recording_config object | null

Configure the recording generated by the bot. Includes options for getting meeting transcript, the layout of the recorded video, when to start recording and more.

RECORDING_CONFIG OBJECT | NULL   +

output_media object | null

Settings for the bot output media.

OUTPUT_MEDIA OBJECT | NULL   +

automatic_video_output object | null

Settings for the bot to output video. Image should be 16:9. Recommended resolution is 640x360.

AUTOMATIC_VIDEO_OUTPUT OBJECT | NULL   +

automatic_audio_output object | null

(BETA) Settings for the bot to output audio.

AUTOMATIC_AUDIO_OUTPUT OBJECT | NULL

Ask AI ●

chat object | null

(BETA) Settings for the bot to send chat messages.
(Note: Chat functionality is only supported for Zoom, Google Meet and Microsoft Teams currently.)

CHAT OBJECT | NULL   +

automatic_leave object | null

AUTOMATIC_LEAVE OBJECT | NULL   +

variant object | null

Configure bot variants per meeting platforms, e.g. {"zoom": "web_4_core"}.

VARIANT OBJECT | NULL   +

zoom object | null

Zoom specific parameters

ZOOM OBJECT | NULL   +

google_meet object | null

Google Meet specific parameters

GOOGLE_MEET OBJECT | NULL   +

metadata object
